## SIGNATURE WORKSHOP APRONS

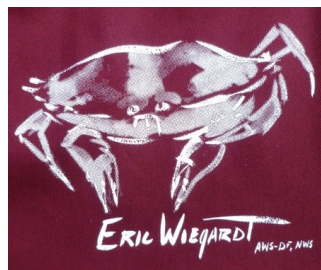

We have new *Signature Workshop Aprons* in FOUR colors: **Maroon Red, Hunter Green, True Black and Blue Jean.** Eric painted the tasty Dungeness Crab for this apron. So here is your opportunity to add your own designs to these original aprons while you paint!

The Dungeness crab is a species of crab that inhabits eelgrass beds and water bottoms on the west coast of North America. It typically grows to 7.9 inches across the carapace and is a popular seafood prized for its sweet and tender meat. Its common name comes from the port of Dungeness, Washington.

Here on the Long Beach Peninsula, Crab Boats are a common part of the oceanview. At night it is not unusual to see as many as 50 crab boat lights off shore. It is plentiful in season, wonderful to eat, enjoyable to paint and to have a center piece with our new Signature Aprons.
